

About Us

The German-American Heritage Foundation of the USA is an educational organization and serves as the national umbrella organization in which German Americans work together on vital issues of common concern and promote their heritage. Our mission is to preserve and inform about the history of Americans of German-speaking ancestry and their role in building the United States. We want to excite the next generations to rediscover their roots, while strengthening political, cultural, and economic transatlantic relations. GAHF was founded in 1977 and chartered in 1978 as the United German-American Committee of the USA, Inc. as an independent, tax-exempt educational not-for-profit organization.
